

Cage Green Primary School EYFS Curriculum Map Autumn

Autumn Term Theme: Our Wonderful World

This term in Reception we will focus on helping the children to settle into school life. As part of Our Wonderful World theme they will learn about each other's families, life in their local community and in the wider world.

Communication and Language

We will be focusing on developing children's language by discussing themes, concepts and the new vocabulary heard in a range of high-quality texts. We will also develop listening and sequencing skills through stories by using role-play, small world figures and puppets.

Personal Social and Emotional Development

This term we will use the Jigsaw framework 'Being Me in My World'. During this unit the children will learn what makes them special as individuals, to name their feelings and how to form positive relationships at school.

Physical Development

In PE children will learn how to dress and undress on their own. We will focus on developing our core strength and co-ordination by using outside equipment and developing our fine motor skills by drawing and writing on a large scale. We will also play lots of physical games.

Literacy

The children will listen to and discuss stories about starting school and other familiar experiences. We will play listening games in preparation for phonics learning before beginning our RWI Phonics.

Maths

The children will learn to sort and recreate patterns. They will learn how to count objects and recognise and understand the value of numbers 1-5 and the properties of 2D shapes.

Understanding of the World

We will talk about families and how they differ. We will learn about our local community, finding familiar landmarks on maps. We will also learn about different cultural celebrations and traditions.

Expressive Arts and Design

We will explore a range of artistic media and experiment with colour mixing and joining materials. We will also learn new songs and how to handle and play a range of percussion instruments.
